SUBJECT: **FEEDBACK REPORT ON THE RRP CFWT (Project LAWA and BINHI) SITE VALIDATION IN THE MUNICIPALITY OF MAINIT, MALIMONO, GIGAQUIT AND TAGANAAN, SURIGAO DEL NORTE LAST MARCH 5 – 8 , 2024 .**

DATE: **March 20, 2024**

Date	Place Visited	Discussions/Findings	Agreement Reached/Action Taken
March 5, 2024	Mainit, Surigao Del Norte	<p>The team consisting of Rutchel R. Molino, PDO III – Program Focal, Oriel M. Jacobe PDO III – MATA Support, Rachelle Pacot, PDO I – Provincial Program Support, Quickie Escorpion PENRO focal, Engr. Rene Ranario and Engr. Jeanie A. Quirequire - OPag focal, Antonio Penaflor Jr, MAO-representative, Teresito B. Jamero Jr. SIC – SCNHS and Diosim P. Malig –on, HCFA – President conducted site validation of the proposed project of RRP CFWT in the municipality of Mainit Surigao Del Norte.</p> <p>The Municipality of Mainit of Surigao Del Norte has 446 partner</p>	<p>During our exit conference it was agreed that :</p> <ol style="list-style-type: none"> 1. The Barangay will scout and identify the lot needed for the fruit tree growing. If the lot for the said implementation is identified, they will coordinate with the Provincial / Municipal Validation team for site

	<p>beneficiaries, which has the biggest allocation in the Province of Surigao Del Norte. Because of this, they are having problem in finding viable and adequate lot and planting materials since it requires massive land area for the implementation of the project.</p> <p>Upon Site Validation the team found two possible sites for phase 1 and phase 2 of the project. The possible viable sites are the following :</p> <ol style="list-style-type: none"> 1. First site identified is located in Purok 7 Barangay Cantugas. It is more than 1 hectare. It is viable for the installation of the Small Farm Reservoir (SFR) and Communal Vegetable Garden since there is an existing source of flowing water and there are fish pens nearby indicating the abundance of water. However Fruit trees growing is not feasible in the area since it need massive lot for its implementation. 2. Second site identified is in back portion of Cantugas Cultural National high School. It is a public land since it is owned by the school. Upon inquiry it is known that the said lot is 4.5 hectares. Because of its massive area, it is viable for the Small Farm Reservoir and Communal vegetable garden and possible for part the fruit tree farming. However, the team is reluctant to put fruit trees in the since it will be cut if the school needs an area for its expansion. Therefore, it was suggested that the fruit trees will be implemented elsewhere. 	<p>validation and finalization. Submission of the copy of lot Documents are also needed as proof of validity of the area.</p> <ol style="list-style-type: none"> 2. If the Barangay cannot find the lot needed for Fruit tree Farming, then it will be implemented in another Barangay identified with viable and adequate land. 3. Barangay to conduct his activity in the second week of March. 4. PLGU / MLGU / BLGU to have a counterpart ready prior to implementation.
--	--	---

		<p>The distribution of the 446 beneficiaries will be the following:</p> <ul style="list-style-type: none"> a. For the proposed installation of 2 reservoirs – 100 benes b. For 2 Communal Vegetable Garden – 50 beneficiaries c. For Fruit Tree Farming – 296 beneficiaries 	
March 6,2024	Barangay Binucaran, Malimono,SDN	<p>Oriel M. Jacobe, PDO – III, MATA Support of the RRP CFWT, Rachelle Pacot, PDO – I, Provincial Support of the RRP CFWT, John Mark Agustin E. Acido - MER focal of the RRP CFWT, Quickie Espcorion - PENRO focal, Engr. Jeanie A. Quirequire and Engr. Rene Ranario - OPag focal, Loreta Lloren – MAO, Mary Jane Cabajes - MSWDO Representative, Vicente R. Calo – Brgy. Kagawad, conducted the site inspection of the proposed site of Barangay Binocaran, Malimono, SDN.</p> <p>During the said inspection it was found out that the ownership of the lot proposed for the installation of Small Farm Reservoir, Communal Garden were not yet confirmed by the Barangay if it is a private land or land under tax declaration. There are 310 partner beneficiaries to be selected within the guidelines of the said project.</p> <p>As per site inspection, the proposed lot for Small Farm Reservoir is viable for the said implementation since it has a water source that according to Ma'am Loreta Loren (MAO) and Kagawad Vicente R. Calo, is proven to not dry out even during drought. However it was observed that the source needs rehabilitation</p>	<p>MLGU and BLGU to coordinate and verify the ownership of the proposed lots and secure the documents needed. This will be done with week after the site validation.</p> <p>Also to PLGU / MLGU /BLGU will secure the needed Planting materials and have it ready prior to the implementation</p> <p>If the lot ownership is a titled land, then BLGU will look for another lot said projects.</p>

		<p>since it was not maintained for, including its' irrigation canal leading to the service area (communal garden). They proposed to add another project that will rehabilitate and repair the damaged portions of the irrigation canal. The space for communal garden is also viable since it has a lot of space that accommodate the requires 1,600 sq.m.</p> <p>However, the MLGU will negotiate the management of the Surigao Del Norte State University Malimono Campus if they can use the vacant lot for the fruit tree farming project since it needs a massive space to accommodate its 18,500 seedlings. they will also try to negotiate the owner of proposed lot for communal garden if they can double the size of it so that produce more vegetables for the community.</p>	
March 7,2024	Brgy. Poniente , Gigaquit, SDN	<p>Rutchel R. Molino, PDO-III - Program Focal, Oriel M. Jacobe, PDO III- MATA Support, Faith Pinggoy, PDO II – Provincial Focal of SDS , Quickie Espcorion - focal, Engr. Jeanie A. Quirequire and Engr. Rene, Ranario - OPag focal, Fritzie Legaspe - MSWDO representative, Anecito C. Apatan - MAO Representative, Hon. Alfred Timosa Tutor – Barangay Captain and Lorna R. Ravera - Barangay Secretary conducted the Site Validation of the proposed site for Barangay Poniente, Gigaquit, SDN.</p> <p>During the said site validation, it was found out that the installation of Small Farm Reservoir is not viable due the topography of the area. It was proposed to Repair and Rehabilitation of existing mini dam. The works or activities that</p>	<p>After the exit meeting the following were agreed :</p> <ol style="list-style-type: none"> PLGU/ MLGU / BLGU to have a counterpart ready prior to implementation. Barangay will ensure the ownership of the lot where the proposed projects will be implemented are not private land. Confirmation of this is the tax declaration documents to be submitted at the PLGU with a

	<p>will be considered are as follows:</p> <ol style="list-style-type: none"> 1. Repair of dilapidated portions of the mini dam. 2. Clearing and Excavation of portions (30 meters front and 30 meters back) of the mini dam. 3. Stone piling of the side of the mini dam. <p>Additional projects will also be added to the program since it was observed that the irrigation canal going to the service area (Communal Garden) was damaged and needs repair.</p> <p>For the site for communal garden, it was found out that the lot ownership of the proposed project is a private lot. The Barangay was advised to look for a lot that will adhere the requirements.</p> <p>Also the Fruit tree farming was changed to mangrove planting since the area is more suitable and the planting materials can be provided by the LGU.</p> <p>As per agreement during exit meeting the distribution of the partner beneficiaries are as follows :</p> <ol style="list-style-type: none"> 1. For Repair and Rehabilitation of SFR and Irrigation canal – 200 beneficiaries will be assigned (including repair of damaged areas of the dam, desilting and removal of debris and sand, stone piling and riprapping) at 30m for front portion and 30m at rear portion of the dam. 2. For the Installation of Communal Garden – 35 	<p>copy to be provided to the DSWD FO. Target date will be on March 8,2024.</p> <ol style="list-style-type: none"> 3. PLGU to inform the MAO to consider the planting of mangroves to Barangay Mahanub. 4. Barangay to validate the site intended for the mangrove reforestation. 5. List of the list of beneficiaries consisting of farmers and fisherfolk organization to be submitted for cross matching of the MSWDO.
--	--	--

		<p>beneficiaries</p> <p>3. For the Bangus Processing and Marketing – 25 beneficiaries</p> <p>4. For Mangrove Reforestation – 110 beneficiaries</p> <p style="text-align: center;">Total of 360 beneficiaries.</p>	
March 8, 2024	Barangay Himamaug, Taganaan, SDN	<p>Rutchel R. Molino, PDO-III - Program Focal, Oriel M. Jacobe, PDO III- MATA Support, Faith Pinggoy, PDO II – Provincial Focal of SDS, Rachelle B. Pacot – Program Support of SDN, Quickie Espcorporion - PENRO focal, Engr. Jeanie A. Quirequire and Engr. Rene, Ranario - OPag focal, Jaypee Andres – MSWDO focal, Myra Messiah C. Estobo – MAO, Karen Christine Marie Chato – MENRO.</p> <p>The MLGU proposed the site for the installation of Small Farm Reservoir and Communal Vegetable Garden at MLGU Demo Farm located in Barangay Himamaug, Taganaan, SDN. However the is very near to Brgy. Aurora, SDN so the MLGU decided that the implementation of the said project will be done by the partner beneficiaries of Barangay Aurora.</p> <p>During our Site validation, it was found out that the lot intended for the Small Farm Reservoir and Communal Vegetable Garden is more than enough for the said activity since it was estimated at 1.5 hectares. This will be done with 125 partner beneficiaries.</p> <p>As per assessment and interview with the Barangay Officials of</p>	<p>During our exit meeting the LGU of Taganaan commits to look for a site for the proposed mangrove reforestation project. This will be subject for site validation. The information of the site will be relayed to the DSWD Regional Focal on Monday or Tuesday of the following week.</p> <p>BLGU to submit the list of beneficiaries to the MSWDO for cross matching and finalization.</p> <p>LGU counterpart to be ready prior to implementation to avoid delay.</p>

	<p>Aurora, They are more than willing to accept and provide list of eligible partner beneficiaries for the implementation of the project since it can help their constituent to have temporary livelihood/source of income.</p> <p>Other activities like seaweed production and processing will be implemented in Barangay Opong with 50 beneficiaries and mangrove reforestation with 175 beneficiaries will be identified since this activity will replace the Fruit Tree Farming since mangrove reforestation is more suitable.</p>
