DATE	PLACE VISITED	DISCUSSION/ FINDINGS	AGREEMENT REACHED/ ACTIONS TAKEN
March 12, 2024	Brgy. San Vicente, Jabonga	<p>The Undersigned together with RRP LGU Focal Mr. Benjie Duarte from the MSWDO, visited Barangay San Vicente and met with Barangay Kagawad Bernabe C. Pagara and IPMR Richard D. Morales to conduct site validation for Project LAWA and BINHI. Barangay San Vicente has an allocation of 128 beneficiaries. First area visited was the Angel Village at Purok 1 which is a government owned lot. Estimated at 10,000 sqm, the barangay proposes to plant of disaster resilient crops, such as Karlang, Camote and Gabi. The surroundings of the project site will then be planted with fruit trees, provided by PLGU Agusan del Norte.</p> <p>A few meters from the planting site, is the secondary water tank of the barangay. Upon inspection, multiple leaks were observed in the area, this is due to exposure of pipelines and the ongoing construction of FMR along the barangay. Leaks from the primary and</p>	<ul style="list-style-type: none">• Fruit trees shall be installed with tree guards• BLGU shall coordinate with MAO for the request of vegetable seedlings• MAO to consolidate request from all barangays and write a letter request addressed to PAO for the supply of vegetable seedlings• BLGU to procure the necessary accessories for the repair of pipelines and suggested to include the PTA members to be part of the beneficiaries of RRP

		<p>secondary water system have caused the intermittent supply of water in the barangay.</p> <p>Another area visited was the San Vicente Elementary School, where the team met with OIC Principal Ms. Bucong to explain about the proposed project Vegetable Garden within their premises. Ms. Bucong was delighted that the San Vicente ES was chosen to be part of the project. They have an existing vegetable garden, but was abandoned due to the lack of water to sustain the facility. She is hoping that thru both Project LAWA and BINHI they can eventually sustain their school garden.</p>	
March 13, 2024	Brgy. San Pablo and Brgy. Bunga, Jabonga	<p>The Undersigned together with RRP LGU Focal Mr. Benjie Duarte and personnel from the Provincial Planning and Development Office, Mr. Hilbert D. Corrompido and Engr. Stanley Pastor, visited Barangay San Pablo and met with Barangay Captain Reynaldo M. Mozol. The Barangay has an allocation of 100 beneficiaries. The proposed project for LAWA is rehabilitation of the secondary Water System. Part of the project is to install 7 rolls of pipelines (donated by PLGU-ADN thru the PPDO), to repair leaks and underground placement of existing pipelines.</p> <p>The identified project for BINHI is school-based gardening at San Pablo Elementary School. Estimate total area is 500 sq.m.</p> <p>The team then proceeded to Barangay Bunga and met with Barangay Captain Mozol. The barangay has an allocation of 75 beneficiaries. The proposed project for LAWA and BINHI are Rehabilitation of Water System and Community Gardening.</p> <p>The secondary water system located within the Barangay site is no longer functioning, the BLGU proposed to upgrade the water system</p>	<ul style="list-style-type: none"> • Fruit trees shall be installed with tree guards • BLGU shall coordinate with MAO for the request of vegetable seedlings • MAO to consolidate request from all barangays and write a letter request addressed to PAO for the supply of vegetable seedlings • BLGU to procure the necessary accessories for the repair of pipelines • Barangay Captain Reynaldo M. Mozol will meet with the school Principal of San Pablo ES to discuss the proposed project that will be established in their area.

		<p>including underground placement of existing pipelines, so that the constituents can access water easily.</p> <p>The proposed site for the community garden is also within the barangay hall site, with an estimate of 300 sq.m. The area is enough for the 15-day CFW for the allocated number of beneficiaries of Barangay Bunga.</p>	
March 15, 2024	Brgy. Poblacion 2 and Brgy, Tagbuyacan, Santiago	<p>The Undersigned together with PLGU Focal Ms. Hannah Baluarte and PPDO staff Jeanette Aboloc met with LGU Focal Ms. Marilyn Baja of the MSWDO to conduct a site visit at Barangays Poblacion 2 and Tagbuyacan.</p> <p><i>For barangay Poblacion 2</i></p> <p>The team met with the Barangay Captain of Poblacion 2, to give some overview with regards to the implementation of the RRP-CFW/T project as well as the validation of proposed site for project BINHI and LAWA.</p> <p>Under project LAWA, one of those identified is the installation of PVC pipelines from the water source to Cadahondahonan Elementary School. The materials to be used will be provided by BLGU. Based on the actual survey, it is more than a kilometer away from the water source to the elementary school. This water line can be used by students and teachers and can also be used for watering plants for Communal Gardening which is the identified project under project BINHI. Approximately, more than 4,000 square meters the size of the area to be planted that belongs to the area of Cadahondahonan Elementary School.</p>	<ul style="list-style-type: none"> • BLGU shall coordinate with MAO for the request of seedlings for fruit bearing trees and vegetables for communal gardening • BLGU shall write letter request to PLGU for PVC Pipes and necessary accessories for replacement of damaged and leaking G.I. pipelines.

	<p><i>For barangay Tagbuyacan</i></p> <p>For project LAWA, replacement of damaged and leaking G.I. pipelines from the secondary reservoir of the barangay located in purok 2 will be implemented. Materials to be used for the replacement of water pipes will be requested to the PLGU of Agusan del Norte within the month of April 2024. Approximately, 5-6 rolls of pipes are required to replace damaged and leaking water pipes. For project BINHI, BLGU Officials pointed out that planting of fruit bearing trees such as mango, lanzones, rambutan, durian around the boundary of the barangay site will be implemented. It is also suggested that each project beneficiary can plant not less than 45 trees within 15 working days.</p>
